

STAFF DIGITAL IDS

# Professional identity. Digital Simplicity.

Your company. Your staff. A digital ID they can carry.

**Your staff ID, on their phone.**

Illustrative badge and screen.

## Confidence at the door.

Give clients and families a clear way to view a staff member's identity and check the current badge status.

✓ **Recognize your team**

Photo, name, role and company details in one professional digital ID.

✓ **Check current status**

Scan the QR code to open online verification before accepting the ID.

✓ **Respond to staff changes**

Promptly inactivate an ID when someone no longer works for your company.

# A smarter ID. A stronger verification process.

### Help deter fraud and misrepresentation

A photo badge and live status check help clients spot mismatches and question outdated or misused identification.

### Support protection of older adults

Give families another way to check who is at the door. Identity verification supports your broader safeguards against elder abuse.

### Keep status aligned with staffing

When employment ends, inactivate the ID so online verification reflects its current status. Always verify online; a saved image can be outdated.

### Support compliance and accreditation

Add digital identification and current-status checks to your agency policies, personnel controls and survey preparation.

## Easy for staff. Simple for your company.

### ONE-TAP ACCESS

Email the personal digital ID link. Staff can save a home-screen icon on iPhone or Android and open their badge with one tap.

Available with Apple Wallet and Google Wallet. Home-screen access and live verification require internet.

Illustrative phone screens.

## FULL SERVICE • \$5.00 PER STAFF ID

Design + activation + email delivery  
+ inactivation as needed

Digital IDs support identity and status verification; they do not replace background screening, credential checks, supervision or required physical identification. They do not guarantee prevention of fraud or abuse, or compliance with all regulatory or accreditation requirements.
